## PROJECTS

### **Archer Heights Civic Association Website**

**Wordpress Website**

*Technical Project Manager*

*June 2016*

- Taught the basics of front-end web development to a group of college and high school students
- Lead a team of 5 members to develop Archer Heights Civic Association's website while maintaining on-going communication with the client.
- Converted hard-coded HTML, CSS and JS code into a dynamic, customizable Wordpress theme.
- Website: [www.ahcivic.org](http://www.ahcivic.org)

### **Optimista.soy**

**Wordpress Website**

*Front End Web Developer*

*June 2016*

- Developed multiple web pages from wireframe stage to a fully functional Wordpress theme.
- Incorporated contact form 7 plugin for employee/business leads.
- Configured Premium Custom Fields plugin on site's pages to facilitate code manageability and allow for additional theme customization options.
- Site url: <https://optimista.soy>

### **NYC Neighborhood Tour**

**Web Application**

*Udacity Nanodegree Program*

*February 2016*

- Created NYC Neighborhood Tour using Knockout.js to render and manipulate web app display.
- Incorporated Google Maps API for map rendering, Flickr's API for rendering locations' gallery, and Wikipedia's API for rendering locations' history.
- Added event listeners on search submissions, list and marker clicks through the use of Knockout.js.
- Repository url: [https://github.com/darvizu061/project\\_5\\_neighborhood\\_tour\\_app](https://github.com/darvizu061/project_5_neighborhood_tour_app)

\* All projects are mobile-friendly.
